TO CONSUMPTIVES EVERYWHERE!

A correspondent of a Georgia paper writes as follows

Having seen much suffering from consumption, and knowing thousands of deaths are yearly spent by invalids trusting to the rich and unlearned pretenders who prey upon the afflicted, we propose a simple recipe by which sufferers may become their own physicians and it not to be given will prove a perfect cure if made and regularly taken according to directions. The ingredients are to be found in every garden, and cost but little. Procure from the druggist a pint bottle of the best Jamaica ginger, and into it put a large handful of the inner bark of the common wild cherry tree, broken small, and a dozen pods of red pepper. Let these stand in a warm place for a week, shaking the bottle frequently. Then take a wineglass full before each meal and at bedtime. The ingredients are so common and cheap that no one need be deprived of the benefit of this recipe. Those who have tried it say that it will cure when all else fails. Try it, ye who are sick, and be thankful.

FRIDAY NOV 12 1869

DEMOCRATIC majority in the State of New York in 1868 over 10000 1869

THE Cincinnati *Dime Gazette* says that the majority is 1 second of the people of Westmoreland county is in favor of holding spring elections

NEARLY all of Congress is to remain at the National Capital

GOVERNOR Hoffman has the warm support of the Democracy of Philadelphia

GOVERNOR Wells of the old Confederate States Army, died at Key West on Wednesday

GEN SHERMAN will not be a candidate for President

GEN HOOKER has left Washington for Boston

GEN SCHENCK is to be sent to England as Minister

GEN GRANT is to be sent to Russia as Minister

THE Democratic majority in Maryland will exceed 30000

THE Democrats have made every effort in Maryland and even the President visited Baltimore to help Grant but even this has failed to carry the State for the Republicans

THE Democrats have carried every county in Maryland and even Harford which gave Grant last year. Dent says he will be pretty Democratic hereafter and Beach Hamilton elected through on the Maryland ticket is from July politics

THE Democrats of Schuylkill county elected Col Pleasants to the Legislature by 1000 majority

THE Democrats of Philadelphia are disputing as to which one belongs the honor of having most distressed that County in the name of self government. We propose to divide the honor among the whole party and not to be trusted the Democrats know that Grant was nominated in 1868 and warned the people against him but their warning was not heeded. He now comes home to roost and his inventors. If the Radicals can't stand by it is their own fault—they should have helped to elect an honest man to the Governor's office when they had a chance.

GEARY DENOUNCED BY HIS OWN PARTY.

Convention County has raised a host of enemies by his removal of Hon Benjamin H Brewster from the position of Attorney General and the appointment of Hon J Carroll Brewster in his place. The former wrote Geary a scathing and insulting letter, Hon Morrow B Lowry wrote to Geary in a tone of indignant remonstrance and the Philadelphia Evening *Telegraph* a leading Republican paper denounces Geary in scathing terms and in connection with this, stating that Lowry's opinion of him was instructive whose words are just worthy of record. The Patriot John Morning *Post* editing leading paper says Geary cannot long survive the disgust of his party and his re-election by a majority of thousands less than that of Judge Wells was due only to the necessity of Johnston, Packer &c. The *Telegraph* says

The main element of consolation for another is not the question. The element is not that Mr Brewster is removed for that matter has been known to everybody but that he is removed in the most cowardly and unmanly manner. The crime is that he has surrendered at his administration to the worst men in the party. From he must learn to look for the support which he has hitherto had from men of honor and sincerity. He has learned the office he held and the state and he can clutch and he watch closely Governor and Commissioner has by the Chief Court

And yet all the leading papers even those which now denounce him, except the Evening *Telegraph* and the Pittsburg, *Commercial* support Geary through the whole of the campaign with all possible earnestness filling their columns with the most infamous falsehoods *with the grossest caricatures with the purest and* Shame upon such hypocrisy! And shame upon the voters who were sillyenough to be deceived by it! They have drawn the elephant now see what they will do with him

THE *Bulletin* says there is no doubt of the rejection of the new Constitution of New York and of the universal negro suffrage Amendment which was submitted as a separate proposition. This secured rejection even more sufficient to be worthy to result in view of the ratification of the Fifteenth Amendment by the Legislature. The people have repudiated the fraudulent which they never authorized When the voting Legislature was elected in November party suppressed that such a step should affect the action upon the Radicals desired that such an issue was in the contest. This was the ground they took in Pennsylvania. When the Democrats charged upon them an intention of enslaving the Fifteenth Amendment in case power was placed in their hands they took the old gauntlet and spurned the allegation. But no sooner was the Legislature assembled than the unlimited was pressed through that only on the ground that the people had voted such action at the polls. Under no admonition could not be adopted in this State or in direct vote. The Radicals now fully aware of this fact and know they cheated the unsuspecting people and are afraid to submit the question to the people. Such is the record of the Republicans in New York on this question. Such is the record of the Republicans in Pennsylvania, however was shown to be flowing strongly in our favor and the result of the election proves abundant reason to be confident by a repeal of that unjust Congressional Constituency and we will come out of the conflict with banners waving and will give Pennsylvania to the Democratic column of States doing side of their friendly negotiated sisters

Lancaster Intelligencer

EARLY STOCKS.—The enormous sum with which each of the Democratic candidates for Philadelphia were elected at the late election has disgusted even some of the Radical papers. The Norristown *Independent*, a thoroughgoing Radical paper, in an article under the caption of "Fraud and Forgery" thus alludes to this disgraceful business. We must every *Republican* journal in the State will resume with such terms of severe reproach as the subject merits the gross forgery of returns in Philadelphia by which two Democrats who were honestly elected to office, were cheated out of their certificates of election, by an alteration of figures. We trust the guilty parties, whoever they may be, will be brought to speedy punishment. Such rascals as have done this dirty work, being the party into disrepute, and destroy its usefulness and power. Let them be spurned and kicked from all decent society. All the newspapers give the figures showing Mr Desmond's election beyond controversy and he should be allowed his seat in the State or the Democratic hosts, in spite of the fraud by which he is deprived of his certificate."

THE Philadelphia *City Item* says that if Geary is saved from Impeachment and Deposition it will be through the zeal and efficiency of the new Attorney General We think not P C Brewster knows Geary too well to risk any great exertions to save him Such labor might be repaid with a sudden notice from His Excellency to put the office of Attorney General B H Brewster toughed it in the Oil region to see Geary B H Brewster was rewarded for his pains with a contemptuous order to walk out of Geary's house P C Brewster takes warning from the experience of his step brother, and will, therefore, not be over zealous to rescue Geary from threatened deposition —*Patriot*

A MAN MURDERS HIS WIFE IN PITTSBURG.—Pittsburg Nov 8—Mrs Isabella Campbell residing on 18th street, near Soho Bridge was brutally murdered by her husband Thomas Campbell, except sudriver some time last night. The murderer surrendered himself to the mayor this morning and stated that his wife had died from falling down stairs. The neighbors testified to his having quarrelled with her during the night

THE TURN OF THE TIDE

The elections of 1867 are now over and the very significant indications which they afford of the political progress of the future, are disclosed so plainly that he who runs may read their meaning. The tide which has so long borne the Republican party to success has at length turned in this, the first year after it carried the country by its overwhelming majorities for President and when according to all precedent, it should, flushed as it was with victory, have had an easy triumph every where. Newly elected Presidents do not stand by his friends to back in carrying the country with them during their first year of office, their trying time comes at the Congressional elections of the second year, when they have developed their policy and appointed and disappointed their friends. But it has taken Grant only a single year to get deep into the mire his gift concert plan of giving away the public offices and has only developed total incapacity for his position to have rendered it critically unnecessary for the people to wait longer to make up their verdict upon his administration, and the elections of this year have therefore, pronounced its condemnation

We have carried the State officers and the Legislature in the five great States of Virginia California Tennessee New York and New Jersey, and in every other State in which an election was held we have largely reduced the Radical majorities so that in Pennsylvania we have reduced the 28 000 majority for Grant to 5, 06, in Ohio Grant's 52 000 majority of 1867 has been reduced to 7 0 In Massachusetts Grant had 17 000 lately a while this year the majority of Claflin for Governor over Adams and Chamberlain is less than 10 000 In Illinois and Wisconsin the Radical majority is greatly reduced, and in Minnesota it is almost entirely swept away

For the first time in fifteen years we have entire control of the State of New York, having the Governor, a majority of four in the Senate and twenty in the lower branch of the Legislature. Thus foothold being obtained, it is safe to predict that it will not be lost for a long series of years, for the head of the Democracy of the Empire State are able and shrewd men, who are amply wise and prudent enough to maintain the ascendency which has at last crowned their labors. The vote in the country districts in New York ran very much as it did in the country districts in this State in October with the marked exception that the Democracy there did not so much depend upon the majorities as we expected but gathered in the enthusiasm was pressed through that only on the ground that the people had voted such action at the polls. Under no admonition could not be adopted in this State or in direct vote. The Radicals now fully aware of this fact and know they cheated the unsuspecting people and are afraid to submit the question to the people. Such is the record of the Republicans in New York on this question. Such is the record of the Republicans in Pennsylvania, however was shown to be flowing strongly in our favor and the result of the election proves abundant reason to be confident by a repeal of that unjust Congressional Constituency and we will come out of the conflict with banners waving and will give Pennsylvania to the Democratic column of States doing side of their friendly negotiated sisters

WHAT A DEMOCRATIC GOVERNOR SAYS

Hon John T Hoffman Governor of New York, was serenaded at Albany last Friday night In response he said

I notice that most of the Radical papers in Albany and New York are asking "What will they do with it?" that is with the victory I am hardly disposed to tell them quite yet. I prefer to give them a little time to digest the returns and when these are fully digested we propose to give them some information as to what we will do with it In my observations I have found that knowledge suddenly acquired is never very profitable but I will tell them in general terms one or two things we propose to do We propose to make the legislature of the State of New York honest and that is what they have not been in some time We propose to use the legislature for the purpose of promoting the interest of the mass of the people, and not the interest of the few, which the Radicals have not done for a long time

The *Tribune Journal* has stated that for many years there have been few men in the Republican legislatures who could be bought We will show them that in the Democratic legislature there will be none of that kind We propose to give to the people of the State of New York, all over, the right of self government We propose to abolish such laws as infringe upon the rights of localities and secure to them the right to govern themselves We will not abolish such laws and give the people something worse but will give them better laws We propose to make the State of New York, and the government in all its branches, thoroughly Democratic

I am aware of the responsibility this victory imposes I am aware of the responsibilities it imposes on me as the Executive of this State I realize the magnitude and I will not say I am hardly disposed to tell them quite yet. I propose to give them a little time to digest the returns and when these are fully digested we propose to give them some information as to what we will do with it In my observations I have found that knowledge suddenly acquired is never very profitable but I will tell them in general terms one or two things we propose to do We propose to make the legislature of the State of New York honest and that is what they have not been in some time We propose to use the legislature for the purpose of promoting the interest of the mass of the people, and not the interest of the few, which the Radicals have not done for a long time

The Radical journals of Philadelphia (with the exception of the *Press* and *Bulletin*, whose editors are so indebtedness in their partnership that they cannot open their lips against any outrage committed by a member of their party) denounce Geary as an inveterate falsifier and acknowledge the humiliation of their party in his hypocritical and shameful dealing with the late Attorney General Under the caption of "CARY AS A LIAR," the *Dispatch* says

Thus ends for the present this curious episode in State politics The correspondence cannot be perused by any one without strengthening the very unfavorable light in which it places Governor Geary It increases him of duplicity and of ungenerous treatment toward his own officer It even goes further It changes him with having told no less than six distinct falsehoods, to wit

First To Morrow B Lowry on exactly as the 4th of July at Harrisburg in verbal communication

Second To Morrow B Lowry by letter after the conversation referred to but before the writing of the Cowden letter

Third By his declaration to Lewis Wain Smith after July 9th, that Cowden's course was altogether unauthorized

Fourth By a statement made to Alexander Cummings about October 1st

Fifth By a statement made to Brewster, in the presence of Lewis and Gen Thomas F Kane about the 9th of October

To this may be added

Sixth The assertion of Cowden, in his letter, that it was written with Geary's knowledge and by his authority, which directly arraigns the truthfulness of the Governor in his former communications to Lowry

This is really a most disgraceful business Never before has Pennsylvania been disturbed by the suspicion that her chief officer was a man upon whose word dependence could not be placed It is a new humiliation to us to know that for three years the interests of the Commonwealth and the honor of the State are to remain in the hands of a man to whom honor is a stranger

Old Common Schools No 2

TO THE TAXPAYERS AND CITIZENS OF

Mr Editor—Some weeks since I received a letter signed "A Citizen" (for what I did not receive a reply I do not know which of the Town Papers) A Citizen wrote that I would oblige, however that I could see one of the papers published in the county in which one could publish a letter so well written unless he were to publish it over his own signature I therefore did so and sent the letter to the Star and Sentinel, with the request that it be published in that paper, but the Editor refused to publish it, and I have since been informed that he has not published it because I did not publish it over my own signature I have also been informed that the letter was published in the Compiler, but I have not seen it in that paper, and I therefore take this method of answering the letter, and will publish it over my own signature

I am sorry that I am compelled to say that I am disappointed in the result of the letter I sent to the Star and Sentinel, and I am sorry that I am compelled to say that I am disappointed in the result of the letter I sent to the Compiler, but I am not disappointed in the result of the letter I sent to the Star and Sentinel, and I am not disappointed in the result of the letter I sent to the Compiler, but I am disappointed in the result of the letter I sent to the Star and Sentinel, and
